“Joan Fox’s powerful keynote presentation to the President’s Club (our elite sales leaders) in Acapulco in 1992 was the beginning of a professional relationship with Western & Southern Financial Group that has remained steadfast and propitious more than a decade for one reason: Joan Fox delivers.”

Wow! That was a terrific presentation from my point of view...and apparently from the members! Your insights into regenerating creativity struck a chord with our weary editors and writers, as well as tired designers. Many have expressed their appreciation for having you as our anchor speaker for the year.

The seminar series with nine cities in three weeks is a challenge for any speaker, and you rose to the occasion gracefully, and enthusiastically. Your knowledge of the subject matter and ability to customize it to our audiences made the seminars both informative and entertaining. I heard wonderful things from the Regional Vice Presidents about the engagements in their locations.

Susan Cross  
National Association of Concessionaires

You captured the imagination of our members with your customized talk, "Swim, Dive, or Get Out of the Pool"...not only did you keep us all on our toes by involving us as you did, but you really taught us in the process, by addressing many important points. You generated good humor and offered a well prepared handout that was geared so perfectly to our group! We could not have asked for more.

Cindy Browne

Once again you were a hit at the Revenue Review! Your presentations to both the entire group and to the managers were top notch.

I can't believe it has taken me so long to thank you for one of the best presentations I have ever attended. You made a definite impression on our group. Your name is still brought up as one of our most successful meetings.
